## 1. Apps/websites related to our project:

### 1.1. myHomework Student Planner:

It's an app for all levels, from high school to university. myHomework Student Planner gives a calendar in which you can track your upcoming assignments, exams, projects and other important events, as well as a homework widget where you can sync your assignments and receive reminders for when they're due – ideal for avoiding being caught off guard by a deadline.

### 1.2. StayFocusd:

If you're hooked on social media and find yourself checking Twitter five minutes into a revision session, you may want to download an app to block yourself from going on social media or any other distracting websites. For Google Chrome users, StayFocusd is a highly rated extension which lets you restrict the amount of time you can go on time-wasting websites. Or, for your phone, you could use Anti-Social, which lets you see how much you use your phone compared

to others, and allows you to block apps you overuse.

### 1.3. nTask:

Project management software that enables your teams to collaborate, plan, analyze and manage everyday tasks.

### 1.4. Monday.com:

Monday.com is another feature-rich project management tool with a complex set of features and modules to help you manage projects and tasks. With Monday.com, you can create and organize your tasks and to-do list items. You can share and manage files. Email updates to team members or other members of your institute. With different integrations and features, the tool is great to ensure you are not switching between different software while still being able to help you manage your workload.

---

### 1.5. Evernote:

is note-taking software that helps you create and organize digital notes—and keeps them synced across all your devices. You can use it as a digital filing cabinet to organize all your notes, whether they're recipes, strategic plans for work, or a daily diary.

### 1.6. Any.do:

is a productivity platform aimed at task and project management. It is available on mobile, web, and wearables with built-in integrations, including calendars and virtual assistants.

### 1.7. Microsoft one note:

OneNote is a digital note-taking app that provides a single place for keeping all of your notes, research, plans, and information — everything you need to remember and manage in your life at home, at work, or at school. In OneNote, notebooks never run out of paper.

### 1.8. Remember the Milk:

A task management tool that allows students to create and manage tasks, set due dates and reminders, and organize tasks by subject or class.

### 1.9. My Study Life:

A student planner app that allows students to create and manage tasks, view their schedule, and set reminders for upcoming assignments and exams.

manage their time right before exam. They will also have campus news's and motivation quote to motivate themselves more. They can also restrict other websites to increase their focus. Basically we will combine all the following features mentioned above such as Evernote and Microsoft one note are only a note taking software whereas nTask and Monday.com are for project management. Furthermore, my study life, remember the milk, myHomework student planner those are student planner apps based on classes, assignments are so on and StayFocusd is only for app blocking. All these features we will find in a single website that will be easier to use and also makes us distinct from others.

## 2. Schoolaboration

The goal of our system is to provide students with a centralized platform where they can view and manage all their coursework, assignments, projects, notes, exams, and other academic-related activities and also they can restrict other websites. In detail we will have a note storage feature where students can keep track of what they have learned in class and can share their notes with others, they can also upload files and convert pictures to text. Here students will get individual course materials in another feature. Then team project feature is to keep track of project progression in order to finish every task timely. This system will also remind the students of their class time and assignments. We will have a to do list option where task will be organized by their priorities. Students will also get suggestions about how to
